A whole fruit-and-vegetable smoothie with no added sugar: carrots, beetroot, apple and orange give about 6.5 g of fibre, nearly a day's vitamin A, about 40% of a day's vitamin C and a fifth of a day's folate a glass.

**Diet notes:** Low saturated fat (0 g, 0% of the energy); DASH-friendly (110 mg sodium a serve).

## Method TIMES = THE MOMENT IN THE VIDEO

1. Roughly peel (or just scrub) 3 carrots and 1 medium beetroot, trim them and cut into 2-inch chunks. Core and slice 1 apple, and juice 1 large orange. 10:24
2. Pour the orange juice and 1 cup cold water into a high-powered blender, then add the apple, carrots, beetroot and a small peeled chunk of fresh ginger. 10:51
3. Blend on high for about 1 minute, using the tamper if needed, until the vegetables are completely broken down and smooth. 11:00
4. Pour into two glasses and drink straight away, or keep it in the fridge. For a thinner juice, strain it through a nut milk bag (you lose most of the fibre). 11:11

> **Tip** Peeling is optional: a rough peel or a good scrub is enough. It keeps in the fridge until later in the day; stir before drinking.

The method is a summary in our words — the video shows every step.
