Ingredients 3 · MAKES 1 × 1 TRAY (1 BUNCH OF KALE)

- ☐ 1 bunch **curly kale**, stems removed (about 1.2 L torn leaves, roughly 130 g)
- ☐ 1 tbsp **olive oil**
- ☐ ½ tsp **sea salt**

Amounts in metric units, converted from the cook's and rounded — the video has the originals.

Allergens found in the listed ingredients: none. Worked out from the ingredient list, not tested. Stock, sauces, spice mixes and other packaged foods can contain allergens, so always read the labels on what you buy. If you have a food allergy, don't rely on this.

Method TIMES = THE MOMENT IN THE VIDEO

1. Heat the oven to 175 °C.
2. Wash the kale, strip the leaves off the stems and tear them into bite-size pieces. Dry them very well in a salad spinner or with tea towels; wet kale steams instead of crisping. 2:14
3. Toss the dry kale in a large bowl with the olive oil and sea salt until every piece is lightly coated. 2:25
4. Spread the pieces over a large baking sheet (or two) in a single layer with no overlap. 2:31
5. Bake for 15–20 minutes until crisp, watching closely near the end as they burn quickly. Eat straight away while hot and crunchy. 2:34

> **Tip** The cook eats the whole tray as one snack; ½ tsp salt is a lot for one person, so salt lightly or share the tray. Best eaten fresh; they soften in a sealed container within 1–2 days.

The method is a summary in our words — the video shows every step.
