Chicken and Broccoli Stir-Fry

25 min · Serves 2 · 277 kcal a serve · Video 8:40 · ChineseHealthyCook

No dairy listed · No nuts listed

Lean chicken breast and a big portion of broccoli: one serve gives more than 25 g of protein, fibre and more than a day's vitamin C, with the vegetables steamed in the pan instead of fried.

Diet notes: Low carb (9.9 g net carbs) but not keto: 41% of the energy is from fat, and keto meals get about 60% or more; Low saturated fat (1.6 g, 5% of the energy); DASH-friendly (550 mg sodium a serve); Paleo with a swap: arrowroot or tapioca starch instead of the potato starch, coconut aminos instead of the oyster sauce, olive, avocado or coconut oil instead of the canola oil; Gluten-free with a swap: Use a gluten-free oyster sauce or tamari.

Allergens found in the listed ingredients: Gluten, Molluscs, Sesame, Soy. Worked out from the ingredient list, not tested. Stock, sauces, spice mixes and other packaged foods can contain allergens, so always read the labels on what you buy. If you have a food allergy, don't rely on this.

Method TIMES = THE MOMENT IN THE VIDEO

1. Slice the chicken thinly. Season with a little salt and white pepper, mix in a splash of water, then ½ tsp potato starch and a little oil. Leave 5–10 minutes. 1:04
2. Mix the oyster sauce, 1 tsp potato starch and ¼ cup water into a slurry. 3:10
3. Heat a pan over high heat, add the oil and stir-fry the chicken for a few minutes until no pink remains. Set it aside. 3:35
4. Add a little water to the pan and bring it to a boil. Add the broccoli, carrot, a pinch of salt and the garlic, cover and steam 1½–2 minutes, depending on how crunchy you like it. 4:50
5. Return the chicken, turn the heat to medium, stir in the slurry until glossy, and finish with a drizzle of sesame oil if you like. 5:43

> **Tip** Serves 2 with rice (our estimate). Thinly sliced chicken thigh, prawns or tofu can stand in for the breast. Add more water to the slurry if you like extra sauce.
