Slow-Roast Pork Leg with Salt-Only Crackling

185 min · plus overnight drying in the fridge · Serves 8 · 512 kcal a serve · Video 3:47 · Coles

Carnivore · Paleo · Gluten-free ingredients · No dairy listed · No nuts listed

Nothing but pork and salt: a serve gives about 50 g of protein, more than a day's selenium and plenty of zinc and B vitamins. It's a big plate (about 510 kcal before the crackling), so pair it with vegetables if you're not eating carnivore.

Allergens found in the listed ingredients: none. Worked out from the ingredient list, not tested. Stock, sauces, spice mixes and other packaged foods can contain allergens, so always read the labels on what you buy. If you have a food allergy, don't rely on this.

Method TIMES = THE MOMENT IN THE VIDEO

1. The day before, unwrap the pork and leave it uncovered in the fridge overnight so the skin dries out. 0:14
2. Preheat the oven to 300°F (275°F fan). With a box cutter or very sharp knife, score the skin in thin lines close together, through the skin but not deep into the fat — more cuts give thinner, crisper crackling. 0:20
3. Rub coarse salt into the skin and the scores; no oil. Sit the pork on a rack in a roasting pan so air can circulate. 0:50
4. Roast for 1½–2 hours, until the thickest part reads about 122°F and the skin looks dry but not yet crisp. Lift out the rack and pour off the fat from the pan. 1:13
5. Turn the oven up to 475°F (450°F fan) and roast 20–25 minutes more, until the skin bubbles into crackling and the centre reads about 140°F. 1:53
6. Rest for 25 minutes. Remove the string, lift off the crackling in one piece and chop it, then carve the meat thinly. Carve only what you need so leftovers stay juicy. 2:28

> **Tip** Low heat dries the skin; the final blast puffs it into crackling. The nutrition is for roast leg meat and fat — the food row has no skin, so the crackling adds more fat than shown. Coles serves it with roast cauliflower and agrodolce.
