A crunchy, almost calorie-free pickle — about 8 kcal a serve — soured by lactic-acid fermentation instead of vinegar, with no sugar. Like all brined pickles it is very salty (about 420 mg sodium a serve).

Diet notes: Low carb (1.6 g net carbs) but not keto: 8% of the energy is from fat, and keto meals get about 60% or more; Low saturated fat (0 g, 0% of the energy).

Ingredients

7 · MAKES 27 × ½ PICKLE (50 G)

- [ ] 3 lb **pickling cucumbers**, 4–6 inches long
- [ ] 5½ oz (about ½ cup) **pickling salt**, for the brine (the pickles take up about 1 oz)
- [ ] 1 large bunch **fresh dill** (strained out when jarred)
- [ ] 1 tsp **dill seed** (strained out when jarred)
- [ ] 2 cloves **garlic**, crushed (strained out when jarred)
- [ ] 1 tbsp **black peppercorns** (strained out when jarred)
- [ ] 1 tbsp **red pepper flakes** (mostly strained out when jarred)

Amounts in US units, converted from the cook's and rounded — the video has the originals.

Allergens found in the listed ingredients: none. Worked out from the ingredient list, not tested. Stock, sauces, spice mixes and other packaged foods can contain allergens, so always read the labels on what you buy. If you have a food allergy, don't rely on this.

Method

TIMES = THE MOMENT IN THE VIDEO

1. Stir 5½ oz (about ½ cup) pickling salt into 1 gallon filtered or bottled water (chlorinated tap water can stop the fermentation) until dissolved. Scrub the cucumbers and trim off the blossom ends. 0:05
2. Put the dill seed, fresh dill, garlic, peppercorns and pepper flakes in a 1-gallon crock and stand the cucumbers upright on top. 0:44
3. Pour in brine until it is about 2 inches below the rim. Fill a zip-top bag with more brine (not plain water, in case it leaks), seal it and lay it on top so every cucumber stays submerged. Discard the leftover brine. 1:22
4. Keep the crock at about 68–70°F, no warmer than 75°F. After 3 days bubbles should rise; from then on skim any scum from the edges daily or every couple of days and rinse the bag in clean water. 2:04
5. When the bubbling stops and the pickles taste sour (about 6–10 days), cover loosely with a plate and refrigerate for about 3 days, skimming as needed. 4:04
6. Pack the pickles into jars, cover with the strained brine and keep refrigerated for up to 2 months. Throw them out if they turn soft or smell off. 4:28

> **Tip** Makes about 3 lb of pickles, roughly 27 half-pickle serves (our estimate). Use small, firm, very fresh cucumbers. If the brine bag leaks, top up with brine, never plain water.

The method is a summary in our words — the video shows every step.

One portion, ½ pickle (50 g), gives you

1 OF 27 · ESTIMATE
