Parmesan-Roasted Cauliflower

45 min · Serves 6 · 165 kcal a serve · Video 3:08 · Food Network

Gluten-free ingredients · No nuts listed

Roasting brings out cauliflower's natural sweetness without crumbs or flour: each serve has vitamin C, fibre and about 4 g net carbs, with the cheese adding some protein and calcium.

Diet notes: Keto (3.8 g net carbs a serve); Vegetarian with a vegetarian hard cheese instead of the freshly grated Gruyère and freshly grated parmesan (traditionally made with animal rennet).

Allergens found in the listed ingredients: Milk. Worked out from the ingredient list, not tested. Stock, sauces, spice mixes and other packaged foods can contain allergens, so always read the labels on what you buy. If you have a food allergy, don't rely on this.

Method TIMES = THE MOMENT IN THE VIDEO

1. Heat the oven to 350°F. Remove the outer leaves and cut the cauliflower into florets, discarding the stems. Spread them on a sheet pan. 0:44
2. Drizzle with the olive oil, season generously with salt and pepper and toss well. 1:20
3. Roast for 30 minutes, tossing once, until tender and starting to brown. 1:37
4. Sprinkle over the parmesan and Gruyère and return to the oven for 1–2 minutes, just until the cheese melts. Season to taste, scatter with parsley and serve hot or warm. 1:57

> **Tip** Ina Garten's recipe, serves 6 as a side. Any hard cheese works in place of Gruyère. Leftovers reheat well in a hot oven.

The method is a summary in our words — the video shows every step.
