## Method TIMES = THE MOMENT IN THE VIDEO

1. Butterfly the chicken: lay it breast-side down, cut out the backbone with kitchen scissors, turn it over and press firmly on the breastbone to flatten. 0:36
2. Mix 2 tbsp olive oil with the lemon juice, vinegar, rosemary, oregano, chilli flakes, smoked paprika, salt and pepper. In another bowl mix the grated garlic with 1 tbsp oil and a pinch of salt. 1:03
3. Loosen the skin over the breasts, rub the garlic paste and a little of the marinade underneath, then rub the rest all over the outside. Cover and refrigerate at least 1 hour, or overnight. 3:08
4. Take the chicken out 30 minutes before cooking and heat the oven to 425°F. Lay it skin-side up in a roasting pan, drizzle with a little oil and tuck the lemon wedges underneath. 4:00
5. Roast 40–50 minutes, basting once or twice, until golden and the thickest part of the thigh reaches 165°F. For extra-crisp skin, finish under the grill for 2–3 minutes, watching closely. 4:24
6. Rest 10–15 minutes in the pan, carve, spoon over the pan juices and serve with lemon wedges. 4:55

> **Tip** The cook serves it with roast potatoes and a green salad. Marinating overnight gives a deeper flavour. Use less chilli for a milder bird.

The method is a summary in our words — the video shows every step.
