Method TIMES = THE MOMENT IN THE VIDEO

1. If starting from whole seeds, blend about 160–180 ml golden or brown flaxseeds to a very fine meal in a high-speed blender. 0:20
2. Bring the water to a full boil, take it off the heat, add the salt and flaxseed meal and stir for 1–2 minutes until the water is absorbed and a dough forms. 1:07
3. Turn the dough onto a non-stick surface, let it cool until you can handle it, then divide into 4 pieces. 2:08
4. Roll each piece between two sheets of baking paper to about 1.5 mm thick and cut a 21 cm round with a bowl or lid; re-roll the scraps into a fifth wrap. 2:28
5. Cook each wrap in a preheated non-stick or well-seasoned cast-iron pan over medium heat for 60–90 seconds, flip and cook 30–60 seconds more — don't overcook or they turn crisp. 3:48

> **Tip** The cook fills hers with sprouted hummus and vegetables; for keto use guacamole, egg or chicken salad, or smoked salmon. They keep 4–5 days in the fridge, or a month frozen with baking paper between them.
